SKILLS

Programming Languages Python | Java | C# | JavaScript | C

Technologies AWS- EC2/S3/Lambda | Google Cloud- GKE/Firebase | Docker | React.js | Unity | .NET

EXPERIENCE

Puzzle Cats

Jan 2021 - Present

Software Engineer

Toronto, ON

- Architected a scalable replay system for mobile games' bot AI using cloud services, handling 100,000+ replays without impacting user devices
- Redesigned data pipeline using Firebase and S3, resulting in a 24,000% speed increase and a 98% reduction in data issues
- Onboarded and managed one engineer, guiding development on \$1M/year product line

Manulife

Jan 2020 - Dec 2020

Software Engineer Intern / Part Time

Waterloo, ON

- Developed ServiceNow wrapper using MongoDB, Express, React & Node allowing bulk and profile requests to internal ticket system
- Led Software Intern Hiring committee, motivating 24 volunteers (up from 10 in the previous semester) to execute hiring plan, achieving record time hiring cycle
- Awarded at townhall for creating Slack bot service using Docker, Typescript, and Bolt SDK with >90% test coverage

BlackBerry

Sep 2018 - Dec 2018

Software Engineer Intern

Waterloo, ON

- Expanded automation test suites in Espresso for 4 BlackBerry brand Android apps, averaging a 12% coverage increase
- Saved manual testing team 6 hours biweekly by automating load performance and resource benchmarks

Symbotic

Apr 2017 - Aug 2017

Software Engineer Intern

Boston, MA

- Coordinated with Senior Engineers and used R Studio to generate reports used by Sales for a \$20M product
- Refactored data pipelines based on 5+ shell scripts into a C# application for maintainability

NOTABLE PROJECTS

2009scape.org

Apr 2017 - Jun 2020

Cofounder

Ottawa, ON

- Cofounded largest RuneScape MMORPG remake using Java, Kotlin, and the official client from 2009
- Developed and reverse-engineered client, created 1,200+ endpoints for content and Express APIs, managed hosting and legal issues
- Fostered development culture, transforming into a large open source community with 100+ contributors, 20,000+ players, and new leadership

Monero Tips Bot

Mar 2019 - Jun 2021

Full Stack Developer

Ottawa, ON

- Founded a corporation to integrate Monero, a transactionally private cryptocurrency, into Reddit via an open source bot service
- Implemented front-end in Reddit's UI with PRAW, a Python based Reddit API, and the back-end with RPCs to a hardened Monero daemon
- Won the Canadian University Software Engineering Conference 2020 demo and over 4,000\$ in awards

CONTRIBUTIONS

- **Flatpak** Packaged, maintained, and upstreamed over 50 patches to Linux apps making them installable on 30+ distributions
- **Battle for Middle-Earth** Developed installers for abandoned EA game series, allowing the niche competitive scene to continue thriving

EDUCATION

Bachelor of Computing - Computer Science

Sep 2016 - Apr 2021

University of Guelph

Guelph, ON
