EXPERIENCE

JANUARY 2021 – PRESENT

Puzzle Cats (Startup)
Software Engineer

★ Worked with Unity **C#** to create online mobile games
★ Helped double **LTV** by designing bot system derived from real player games to streamline **User Funnel**
★ Improved **Data Reliability**, measured by backed up days, by creating new data pipeline that ran in minutes instead of hours using **Firebase** and Amazon **S3**
★ Fixed bugs, onboarded new team members, and built new Discord community to over 4,500 members

JANUARY 2020 – DECEMBER 2020

Manulife
Full Stack Developer, Coop/Part-Time

★ Developed a ServiceNow wrapper tool using the **MERN** stack
★ Led Software Coop Hiring on a team of 20 volunteers, resulting in record time hiring cycle
★ Earned Outstanding on evaluation & Awarded at division townhall

SEP 2018 – DEC 2018

BlackBerry
Automation Developer, Coop

★ Developed **Android** test suites to increase reliability for Blackberry apps
★ Automated a manual test suite on the side, saving testers a 6-hour biweekly task, resulting in an Outstanding on evaluation

APR 2017 – AUG 2017

Symbotic
Software Developer, Coop

★ Parsed logs using **Python** & Regex to be read into databases
★ Wrote **Bash** scripts on a spare server to automate daily tasks
★ Helped simplify data pipelines by refactoring a multi-step process into a single **C#** application
